

clearspan *Classic*

“clearspan” is a unique modular balustrade system that is a leader in the New Zealand & Australian building industries.

“clearspan” Classic is a traditional style balustrade with a modern twist. The secondary horizontal rail provides a subtle visual impact, while the glass inserts offer unimpeded views. With varying handrail options and fixing methods. Classic is suitable in all architectural aesthetics and environments.

The system is suitable for residential, commercial*, external, internal & pool fence applications. Spectrum Aluminium are able to provide producer statements with a seven year material defects warranty and a two year workmanship warranty on all it's products.

Features

Structural integrity

All components are made using the highest grades of aluminium and stainless steel
